

Freighty Charges

For each purchase of insurance by one of your customers facilitated through our Services you, the merchant, will be entitled to 5% of the premium paid by the customer as outlined in the Distribution Agreement.

Your premium share will be retained by you before passing the remaining premium to BMS either at the end of each billing period (every 7 days), or when the premium share you have generated equals or exceeds an AUD \$20 threshold, whichever occurs sooner.

We will issue you with a tax invoice detailing each of these transactions on the first day of each month.
